

Newsletter: Project Hästen 21

2024-09-11

This is the newsletter for Project "Hästen 21", located at the intersection of Regeringsgatan and Mäster Samuelsgatan.

The project will continuously distribute bi-weekly information about ongoing and upcoming activities, more information can also be found on www.project-access.se and Instagram: [project_access](https://www.instagram.com/project_access).

If you don't wish to receive these updates, or want to add someone to the distribution list, please send an e-mail to projectaccess@pembroke.com.

Upcoming activities within the next three weeks

- The current activities, stated above, will continue for a few more weeks.

Planned activities outside normal working hours

- Minor overtime during this period between 4 pm-8 pm

About Project Hästen 21

With the new development, Pembroke creates a modern and sustainable building with office, retail and residential spaces. The new Hästen 21 will open up the neighborhood and with new passages, restaurants and stores we transform one of Stockholm's most central districts into a more accessible and attractive place, 24/7.

The city development project started in August 2022 and the new building is planned to deliver in 2026. It will feature a light natural stone and glass façade, green rooftops and terraces. The architecture is inspired by the existing buildings in the area and the size and height of the Hästen 21 building have been carefully designed to blend in with the cityscape.
